

CLIMBING ROSE PLANT NAMED 'MEIVALEIR'

Abstract of the Disclosure

A new and distinct variety of rose plant is provided which abundantly forms attractive double blossoms having a luminous yellow-orange coloration. The plant exhibits a climbing growth habit, dense medium green semi-glossy foliage, and good vigor. The attractive medium green foliage contrasts nicely with the light-colored blossoms. The new variety is particularly well suited for growing as attractive ornamentation in the landscape such as in parks and gardens.
